SKILLS

Mobile Development, Architecture and Patterns, Networking and Data Handling, Version Control and Collaboration, Debugging and Optimisation, and Third-party Integrations

- **Android (Native):** Core Java, Kotlin, Android SDK, Android Studio, Material Design, XML, Push Notifications (FCM), SQLite, Room Database, Jetpack Components (ViewModel, LiveData, Navigation, WorkManager)
- **Cross-platform:** Flutter (Dart), React Native (JavaScript), widget-based UI development, custom plugin integration
- MVVM, MVC, Clean Architecture, Provider (Flutter), Bloc (Flutter), and Redux (React Native)
- RESTful Web Services, JSON, XML, Volley, Retrofit, Dio (Flutter), and Axios (React Native)
- Git, GitHub, Bitbucket, GitLab
- Bug resolution, Performance Tuning, Crash Analysis, Memory Leak Detection
- Firebase (Auth, Firestore, Analytics, Messaging), Google Maps API, Facebook SDK, Payment Gateways, Core Java
- Android SDK
- Volley
- Retrofit
- XML
- Material Design
- Git
- JSON
- Push notification

SUMMARY

Experienced Android and Flutter Developer specializing in mobile application development with expertise in native Android and cross-platform frameworks. Proficient in Core Java, Kotlin, and Android SDK, consistently delivering scalable applications focused on user experience. Collaborated with cross-functional teams to improve application performance through effective bug resolution and performance optimization. Skilled in integrating third-party services such as Firebase and Google Maps API, ensuring robust functionality and adherence to clean architecture principles.

EXPERIENCE

Android/Flutter Developer, 04/2020 - Current Freelancer

- Authored comprehensive documentation for each application, outlining functional aspects, operational workflows, capabilities, and key features.
- Designed intuitive and engaging user interfaces that delivered immersive, multi-sensory experiences.
- Collaborated with cross-functional teams and departments to develop customer-focused mobile applications based on real user feedback.
- Conducted in-depth analysis of mobile applications to identify, document, and address bugs, performance issues, and usability gaps.
- Developed custom mobile applications using native Android technologies, ensuring high performance and scalability.
- Utilized the Android SDK extensively to build robust, efficient, and user-centric mobile solutions.

Mobile App Developer, 01/2018 - 04/2020 Quay Intech Private Ltd - Gurugram, HR

- Involved in all aspects of Android app life cycle from research and planning through deployment and post-launch support.
- Created custom mobile applications using native technologies as per client specifications.
- Tested applications prior to final review to ensure that all issues were resolved in most efficient manner.
- Provided dedicated support and timely issue resolution to clients following successful app launch.
- Collaborated with clients from concept through final delivery of product or service.
- Developed mobile applications tailored to client requirements utilizing native technologies.
- Participated in entire life cycle of Android applications including, but not limited to, research and planning through app launch and client support.
- Analyzed and tested applications before final step prior to launch so that last minute issues were remedied quickly.

Android Developer, 01/2016 - 12/2017 StarxSoft Technology Private Limited - Gurugram, HR

- Android Studio
- Bug resolution
- Android development
- Kotlin
- MVVM
- Web Services
- SQLite
- Third Party Library
- MVC
- Room Database
- Jet Pack Component
- View Model
- Live Data

- Conceptualized, designed, developed and deployed applications for android based mobile phones.
- Developed update patches, modules, and components for different applications.
- Created handset specific user interface (UI) for mobile phones and tablets.
- Researched on application acceptance and solicited feedback from users to make the new and existing applications more user-friendly.
- Wrote technical specifications and maintained all reports pertaining to application development process.
- Responsible for creative design for projects.
- Played a key role in writing application logic using Android SDK.
- Responsible for development of all applications components and UI resources.
- Responsible for the design, build, deployment, debug & maintenance of Android applications for Google Play.

LANGUAGES

English:

Hindi:

Android App Developer, 06/2015 - 12/2015

Carbon Machine Private Limited - New Delhi, Delhi

- Responsible for designing distinctive screens for tablet optimization and a cleaner layout.
- Tested applications on multiple devices to ensure compatibility standards.
- Programmed with clean, modular, robust code using Java and XML with Android SDK platform.
- Participated in complete Software Development Life Cycle (SDLC) for proper analysis, development, testing, deployment, and enhancement of the code.

Junior Android Developer, 07/2014 - 05/2015

Xperia Technologies Pvt. Ltd. - New Delhi, Delhi

- Participated in complete Software Development Life Cycle (SDLC) for proper analysis, development, testing, deployment, and enhancement of the code.
- Played a key role in writing application logic using Eclipse IDE and Android SDK.
- Analyzed user interface.
- Professionally completed task or project given period of 1 to 3 months.
- Followed up by testing (user interface, errors with all possible inputs, debugging, publishing) apps after project completion.
